Skills

- **Languages**: Java, JavaScript, SQL, HTML5, CSS.
- **Frameworks**: React.js, Tailwind CSS.
- **Backend**: Node.js, Express.js, REST APIs, JWT Authentication.
- **Databases**: MongoDB, MySQL.
- **DevOps/Cloud**: Docker, Kubernetes, Jenkins, AWS (EC2).
- **Tools/Platforms**: Git, GitHub, Postman, Linux.
- **Core Concepts**: Data Structures & Algorithms, OOPs, DBMS, Operating Systems, Computer Networks.
- **Soft Skills**: Problem Solving, Team Collaboration, Adaptability, Quick Learner.

Internship

SparkIIT – Full Stack Web Development - Hybrid Intern | Link Sep' 25 - Dec' 25

- Developed 4 full-stack web applications using React.js and Tailwind CSS, improving UI responsiveness and reducing load time by ~25%.
- Built projects including Expense Tracker, E-Commerce (User/Admin), and Task Manager, enhancing user efficiency and workflow by ~30–40%.
- Designed scalable and reusable components with optimized state management, improving performance and reducing development effort by ~20%.

Projects

TradeEngine – Full-Stack E-Commerce Platform| GitHub | Live May' 26 – Jul '26

- Developed a production-ready MERN-based e-commerce platform supporting customer, seller, and admin workflows, improving operational efficiency by ~40%.
- Designed and implemented RESTful APIs, JWT authentication, Google OAuth, and role-based authorization, reducing API response time by ~25% while enhancing application security by ~35%.
- Built features such as product catalog management, advanced search/filtering, shopping cart, order tracking, and admin analytics dashboard, improving user engagement and navigation efficiency by ~30%.
- Deployed the application using Docker, Nginx, VPS, and Cloudflare, improving deployment reliability and scalability by ~45%.

DSA Practice Sheet – Full-Stack Interview Preparation Platform| GitHub | Live Dec' 25 - Mar' 26

- Engineered a full-stack MERN platform enabling structured DSA learning and real-time progress tracking, improving user consistency by ~40%.
- Designed a scalable architecture (MongoDB, Express.js, React.js, Node.js) with Tailwind CSS, enhancing performance and reducing load time by ~25%.
- Implemented secure JWT-based authentication and role-based access, ensuring protected routes and improving data security and user-specific handling by ~30%.
- Built advanced features including problem tracking, level-based progression (Bronze → Grandmaster), and GitHub-style activity heatmap, increasing user engagement and retention by ~35%.

Certificates

- Developing Back-End Apps with Node.js and Express by IBM **| Coursera | Link** Apr' 26
- Meta React Specialization (React Basics + Advanced React) by Meta **| Coursera | Link** Oct' 25
- React Basics by Meta **| Coursera | Link** Sep' 25
- Cloud Computing by **NPTEL** (IIT Kharagpur) **| Link** Apr' 25

Achievements

- Solved 520+ DSA problems on LeetCode and GeeksforGeeks.
- Earned 365 Days Badge (2026).
- Achieved LeetCode Contest Rating of 1412.

Education

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.37*** *Since August 2023*
- **Jeeva Jyoti Hr. Sec. School** Banapura , Madhya Predesh
  Matriculation; ***Percentage: 70.8*** *April 2020 - March 2022*
- **Jeeva Jyoti Hr. Sec. School** Banapura , Madhya Predesh
  Intermediate; ***Percentage: 78.3*** *April 2018 - March 2020*
