INTERNSHIP

SparkIIT – Full Stack Web Development - Hybrid Intern | [Link](#)

Sep-Dec 2025

- Contributed to and developed four separate web applications using React.js and Tailwind CSS, focusing on front- end development, state management, and component architecture.
- Key projects include a **Personal Expense Tracker** (with Chart.js visualization), **E-Commerce Frontend** (User/Admin panels), **Personal Portfolio**, and **Task Management System** (demonstrating CRUD logic).

PROJECTS

ShyamVeneer – Accounting & Transaction Management System | [GitHub](#) | [Live](#)

Oct-Nov 2025

- Developed a full-stack business management platform to digitize financial workflows, automate transaction handling, and replace manual bookkeeping for a plywood manufacturing and trading company.
- Built core modules (accounting, order management, bank tracking, profit/loss analytics) using the MERN stack: **Node.js/Express.js**, **MongoDB**, **React.js**, **Tailwind CSS**, **JavaScript**, and **Git/GitHub**.
- Successfully deployed to a real client in Nepal, improving financial accuracy, enabling faster decision-making through real-time dashboards, and significantly reducing the operational workload.

AshishDev – Professional Portfolio & Digital Resume Website | [GitHub](#) | [Live](#)

Dec 2025 – Present

- Engineered a full-stack, professional portfolio and digital resume website to serve as a high-impact digital resume, centralizing projects and skills for instant review by employers, clients, and recruiters from any company.
- Developed the application using the MERN stack: **Node.js/Express.js** backend with **MongoDB** for data management, **React.js** for a responsive frontend, styled with **Tailwind CSS**, and maintained version control with **Git/GitHub**.
- Implemented features like a secure backend contact form, dark/light theme toggle, and crucial SEO optimization/lazy loading, resulting in fast load times and an optimized, seamless mobile-first user experience.
